

Dial Indicator Mount Tevo Tornado Version Two - Free on Thingiverse now!

A couple of weeks ago, I needed to make a Digital Dial Indicator Mount for the Tevo Tornado in Fusion 360. I found a wonderful file on Thingiverse that almost worked. I redesigned/remixed it by building it in Fusion 360. Then I provided this file to the community at Thingiverse as a remixed item. Then I redesigned it a little bit, and finally tagged that thing file as ready for the world, ie not a thing in progress.

I acquired a dial indicator from Bangood, so I needed to change the original model to allow for a thicker diameter fitting. I am providing a file you can bring into fusion360 and edit in case you need a different diameter. I am also including the dot stl for printing straight away if you do not have fusion 360. These files are in Thingiverse, and the link is below.

Here's the thing: <https://www.thingiverse.com/thing:2868352>

Here's the dial indicator I am using: [https://us.banggood.com/Wholesale-Warehouse-DANIU-0-12\\_7mm0\\_5inch-0\\_01mm-Digital-Dial-Indicator-Electronic-Dial-Gauge-wp-Usa-954736.html](https://us.banggood.com/Wholesale-Warehouse-DANIU-0-12_7mm0_5inch-0_01mm-Digital-Dial-Indicator-Electronic-Dial-Gauge-wp-Usa-954736.html)
