

Tevo Tornado 3d Printer: Unbox, Assemble & Print right away!

In this video, Alex Steele and Tall Girl Sydney Unbox, Assemble and Use A Tevo Tornado 3d Printer with Massive build volume! This printer comes in at an awesome price point. Its the perfect addition to my prop making and mold making endeavors.

The whole process took under two hours, and we printed a spool holder right away after we set it up. Flawless first print. Yes, we intentionally ordered PLA that would match the color we saw online when we ordered the TEVO Tornado, because green!
