Yes! Craftsman 9-in. Bench Top Band Saw Unboxing, Assembly, and First Use.

I recently purchased a Craftsman Craftsman 9-in. Bench Top Band Saw, Model# 124.3299, and also Model # BAS230. I unboxed it, and Tall Girl Sydney and I assembled it. I tested it on some scrap I had to see how it performs.

I used a universal stand from Harbor Freight (assembled in another video) and that worked very well for my height. This band saw fits nicely on that stand. One needs to buy bolts to mount the band saw, the bolts are not included in the purchase.

What does come with the purchase is a miter gauge, a Blade Tension Knob, one blade, and the bolts to attach the table, hex keys which are used adjust the upper and lower blade guides.

You will need to make sure the blade is at 90 degrees to the table, so I advise having a square available. You need a wrench too.
